ELSEVIER

Ecological Modelling 84 (1995) 331–332

ECOLOGICAL MODELLING

Contents of *Ecological Modelling*, Vol. 84

(Abstracts / contents list published in: Biological Abstracts, Cambridge Scientific Abstracts, Current Awareness in Biological Sciences (CABS), Current Contents AB & ES, Ecological Abstracts, Ecology Abstracts, Environment Abstracts, Environmental Periodicals Bibliography (EPB))

Predator-mediated coexistence of epiphytic grass shrimps that compete for refuges
I. Tayasu, N. Shigesada, H. Mukai and H. Caswell (Otsu, Nara, Hokkaido, Woods Hole, MA, Japan, USA) . 1
A modified Lotka-Volterra simulation model to study the interaction between arrow bamboo (*Sinarundinaria fangiana*) and giant panda (*Ailuropoda melanoleuca*)
H.-i. Wu, R.L. Stoker and L. Gao (College Station, TX, Chengdu, Sichuan, USA, China) 11
Simulation of host–parasite–landscape interactions: influence of season and habitat on cattle fever tick (*Boophilus* sp.) population dynamics
P.D. Teel, S.L. Marin and W.E. Grant (College Station, TX, USA) 19
A model for testing hypotheses of gypsy moth, *Lymantria dispar* L., population dynamics
A.A. Sharov and J.J. Colbert (Blacksburg, VA, Morgantown, WV, USA) 31
Adaptive control in a resource management model
S. Tiwari, R. Ramaswamy and J. Subba Rao (New Delhi, India) 53
An integrated model for planning and managing multi-regional mixed-crop farming schemes
J.K. Jolayemi (Ibadan, Nigeria) 63
A model of litter decomposition and accumulation in grassland ecosystems
C. Yin and D. Huang (Beijing, China) 75
A coupled map lattice model of the growth of plant monocultures
R.J. Hendry, J.M. McGlade and J. Weiner (Coventry, Swarthmore, PA, UK, USA) 81
Predicting grassland community changes with an artificial neural network model
S.S. Tan and F.E. Smeins (College Station, TX, USA) 91
An individual-based model of alpine plant distributions
H.C. Humphries, D.P. Coffin and W.K. Lauenroth (Fort Collins, CO, USA) 99
Water supply in monsoonal Asia: modelling and predicting small tank storage
S. Mahendrarajah, A.J. Jakeman and P.C. Young (Canberra, A.C.T., Lancaster, Australia, UK) 127
Estimation of lake evaporation from standard meteorological measurements: application to four Australian lakes in different climatic regions
I.M. Vardavas and A. Fountoulakis (Heraklion, Greece) 139
Simulating seasonal soil water balance in contrasting semi-arid vegetation communities
R.G. Kremer and S.W. Running (Missoula, MT, USA) 151
Simulation model of a mesotrophic reservoir (Lac de Pareloup, France): MELODIA, an ecosystem reservoir management model
M.-J. Salençon and J.-M. Thébault (Chatou, Toulouse, France) 163
Is it feasible to predict "slime blooms" or "mucilage" in the northern Adriatic Sea?
M.G. Tomasino (Venice, Italy) 189
Patterns of coral bleaching: modeling the adaptive bleaching hypothesis
J.R. Ware, D.G. Fautin and R.W. Buddemeier (Rockville, MD, Lawrence, KS, USA) 199

Shock load modelling in the anaerobic digestion process
S. Marsili-Libelli and S. Beni (Florence, Italy) 215
Simplified kinetics of tropospheric ozone
S. Marsili-Libelli (Firenze, Italy) 233
Application of a fugacity model for assessing chemical fate in ecodistricts of southern Ontario
W.G. Booty and I.W.S. Wong (Burlington, Ont., Canada) 245
Pesticide leaching into field soils: sensitivity analysis of four mathematical models
D. Persicani (Piacenza, Italy) 265
Bioaccumulation models with time lags: Dynamics and stability criteria
M.C. Newman and R.H. Jagoe (Aiken, SC, USA) 281
Effect of toxic substances on a two-species competitive system
J. Chattopadhyay (Calcutta, India) 287
Ecological exergy analysis: a new method for ecological energetics research
J. Zhou, S. Ma and G.W. Hinman (Beijing, Pullman, WA, People's Republic of China, USA) 291
A group of formulae to unfold econetworks
B.-P. Han (Guangzhou, China) 305
Effects of the spatial and temporal ordering of events on the behaviour of a simple cellular automaton
G.D. Ruxton (Edinburgh, UK) 311

Modelling of Geo-Biosphere Processes
Derivation of soil water capacity parameters from standard soil texture information for Bulgarian soils
B. Kolev, S. Rousseva and D. Dimitrov (Sofia, Bulgaria) 315
